

# 1. Committee

## Committee Members

As in previous years the new Committee was formed with members from 2nd to 6th class. Each class was asked to elect or select children who were interested in becoming members of the Green Schools Committee.

5 from each 5th and 6th class.

3 from each 4th class

2 from each 2nd and 3rd class.

This group of 43 together with 13 adults form the committee.

This group then met and it was explained to them what the officers jobs entailed. Many of them nominated themselves for the posts of chairperson and secretary.

At the second meeting anyone nominated came before the group and spoke about why they wanted the job and what they could contribute etc. Then each member of the committee voted and two chairpersons and two secretaries were elected. One chairperson is from 5 th class and one from 6 th . The two secretaries are from 6 th class. The officers are helped by a teacher to prepare the agenda for meetings. The chairpersons then conduct meetings and the secretaries take the minutes.
